247. N. WATER INTRUSION AND MOLD GROWTH: Recent studies have shown that various forms of water intrusion affect many homes. Water intrusion may occur from exterior moisture entering the home and/or interior moisture leaving the home.

- 248. Examples of exterior moisture sources may be
249. • improper flashing around windows and doors,
250. • improper grading,
251. • flooding,
252. • roof leaks.

- 253. Examples of interior moisture sources may be
254. • plumbing leaks,
255. • condensation (caused by indoor humidity that is too high or surfaces that are too cold),
256. • overflow from tubs, sinks or toilets,
257. • firewood stored indoors,
258. • humidifier use,
259. • inadequate venting of kitchen and bath humidity,
260. • improper venting of clothes dryer exhaust outdoors (including electrical dryers),
261. • line-drying laundry indoors,
262. • houseplants—watering them can generate large amounts of moisture.

263. In addition to the possible structural damage water intrusion may do to the property, water intrusion may also result in the growth of mold, mildew and other fungi. Mold growth may also cause structural damage to the property. Therefore, it is very important to detect and remediate water intrusion problems.

264. Fungi are present everywhere in our environment, both indoors and outdoors. Many molds are beneficial to humans. However, molds have the ability to produce mycotoxins that may have a potential to cause serious health problems, particularly in some immunocompromised individuals and people who have asthma or allergies to mold.

265. To complicate matters, mold growth is often difficult to detect, as it frequently grows within the wall structure. If you have a concern about water intrusion or the resulting mold/mildew/fungi growth, you may want to consider having the property inspected for moisture problems before entering into a purchase agreement or as a condition of your purchase agreement. Such an analysis is particularly advisable if you observe staining or musty odors on the property.

266. For additional information about water intrusion, indoor air quality, moisture or mold issues, please view the Minnesota Association of REALTORS® Desktop Reference Guide at www.mnrealtor.com.

267. O. NOTICE REGARDING PREDATORY OFFENDER INFORMATION: Information regarding the predatory offender registry and persons registered with the predatory offender registry under MN Statue 243.166 may be obtained by contacting the local law enforcement offices in the community where the property is located or the Minnesota Department of Corrections at (651) 361-7200, or from the Department of Corrections web site at www.corr.state.mn.us.

4. Minnesota Statute 1031.235 requires that, before signing an agreement to sell or transfer real property, Seller must disclose information in writing to Buyer about the status and location of all known wells on the property. In the disclosure statement Seller must indicate, for each well, whether the well is in use, not in use or sealed.

WELL DISCLOSURE STATEMENT

68. INSTRUCTIONS FOR COMPLETING THE WELL DISCLOSURE STATEMENT

69. DEFINITION: A "well" means an excavation that is drilled, cored, bored, washed, driven, dug, jetted or otherwise
70. constructed if the excavation is intended for the location, diversion, artificial recharge or acquisition of groundwater.

71. MINNESOTA UNIQUE WELL NUMBER: All new wells constructed AFTER January 1, 1975, should have been
72. assigned a Minnesota unique well number by the person constructing the well. If the well was constructed after this
73. date, you should have the unique well number in your property records. If you are unable to locate your unique well
74. number and the well was constructed AFTER January 1, 1975, contact your well contractor. If no unique well number
75. is available, please indicate the depth and year of construction for each well.

76. WELL TYPE: Use one of the following terms to describe the well type.

77. WATER WELL: A water well is any type of well used to extract groundwater for private or public use. Examples
78. of water wells are: domestic wells, drive-point wells, dug wells, remedial wells and municipal wells.

79. IRRIGATION WELL: An irrigation well is a well used to irrigate agricultural lands. These are typically
80. large-diameter wells connected to a large pressure distribution system.

81. MONITORING WELL: A monitoring well is a well used to monitor groundwater contamination. The well is
82. typically used to access groundwater for the extraction of samples.

83. DEWATERING WELL: A dewatering well is a well used to lower groundwater levels to allow for construction
84. or use of underground spaces.

85. INDUSTRIAL/COMMERCIAL WELL: An industrial/commercial well is a nonpotable well used to extract
86. groundwater for any nonpotable use, including groundwater thermal exchange wells (heat pumps and heat
87. loops).

88. WELL USE STATUS: Indicate the use status of each well. CHECK ONLY ONE (1) BOX PER WELL.

89. IN USE: A well is "in use" if the well is operated on a daily, regular or seasonal basis. A well in use includes
90. a well that operates for the purpose of irrigation, fire protection or emergency pumping.

91. NOT IN USE: A well is "not in use" if the well does not meet the definition of "in use" above and has not been
92. sealed by a licensed well contractor.

93. SEALED: A well is "sealed" if a licensed contractor has completely filled a well by pumping grout material
94. throughout the entire bore hole after removal of any obstructions from the well. A well is "capped" if it has
95. a metal or plastic cap or cover which is threaded, bolted or welded into the top of the well to prevent entry
96. into the well. A "capped" well is not a "sealed" well.

97. If the well has been sealed by someone other than a licensed well contractor or a licensed well sealing
98. contractor, check the well status as "not in use."

99. If you have any questions, please contact the Minnesota Department of Health, Well Management Section,
100. at (651) 201-4587 (metropolitan Minneapolis-St. Paul) or 1-800-383-9808 (greater Minnesota).
